ANNUAL STATISTICAL REVIEW FINAL REPORT FOOD AND NUTRITION PROGRAMS FISCAL YEAR 1975

U.S. DEPT. OF AGRICULTURE
NATL. AGRI. LIBRARY

AUG 12 '77

Summary

The U.S. Department of Agriculture's Food and Nutrition Service (FNS) continued in FY 1975 to provide cash and food assistance to the Nation's schoolchildren and needy families through its Child Nutrition and Family Food Assistance Programs.

In fiscal year 1975:

- Participation in the National School Lunch Program peaked at 25.3 million. Of these, 10.6 million were provided with 1.6 billion free or reduced price lunches.

- A peak of 19.3 million persons took part in the Food Stamp Program.
- Monthly food stamp benefits were, on the average, \$21.41 per participant.
- Federal contributions to all Food and Nutrition Service Programs reached slightly over \$6.6 billion. Some \$6.1 billion represents cash payments while the value of donated foods totaled \$500 million. Of total Federal contributions, 72 percent were expenditures for the Food Stamp Program.

Child Nutrition Programs

FNS provides cash and food assistance to several programs designed to improve the nutrition of children in public and nonprofit private schools, child care centers, settlement houses, summer day camps and recreation centers.

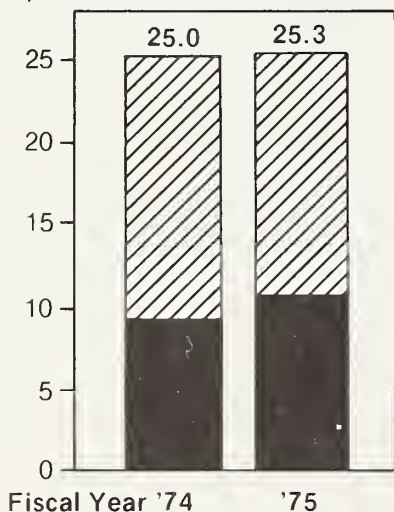

During fiscal year 1975:

- The total number of meals served in all Child Nutrition Programs came to nearly 4.7 billion, 231 million more than the previous year's total of 4.4 billion. The School Breakfast Program and the Special Food Service Program accounted for 0.3 billion meals each.

- The number of free and reduced price meals served to needy children increased 15 percent—from 1.9 billion to 2.2 billion—representing 46 percent of the total meals served.
- Federal contributions to Child Nutrition Programs totaled \$2.0 billion—28 percent more than in fiscal year 1974. Of this amount \$1.6 billion was cash, apportioned to States, and the remaining \$400 million was the Federal cost of donated foods.

National School Lunch Program

The National School Lunch Program, jointly administered by USDA and State education agencies, provides Federal assistance in the form of cash and commodities for lunches served to schoolchildren. The program provides additional assistance for lunches served free or at reduced price to needy children.

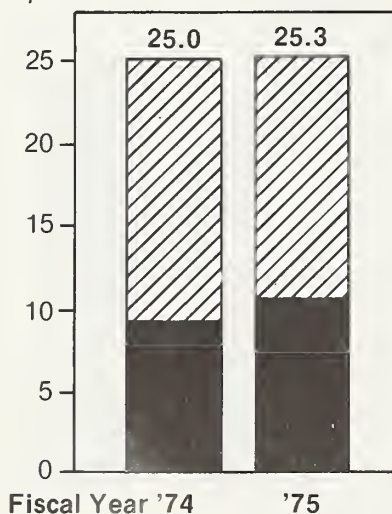

In fiscal year 1975:

- The program was available in 88,921 schools, 1,342 more than the previous year.

- Student participation peaked in March at 25.3 million, representing 57 percent of the children enrolled in participating schools—about the same percentage as the previous year when school lunch participation peaked at 25 million. Student participation averaged 24.9 million, 300,000 more than a year earlier. Of these, 10 million needy youngsters received lunches free or at reduced price, compared to 9.5 million a year earlier.
- The program served 4.1 billion lunches, 2 percent more than the 4 billion lunches served a year earlier. Of these, 1.6 billion were provided free or at reduced price compared to 1.4 billion the previous year.

- The total cost of the National School Lunch Program was \$3.9 billion. The Federal contribution, including USDA donated foods, was \$1.7 billion, 22 percent more than the \$1.4 billion in fiscal year 1974.
- The total cost per lunch came to 95.1 cents, 10.4 cents higher than the previous year. Federal contributions—up 19 percent—averaged 42 cents, 31.7 cents in cash and 10.3 cents in donated foods. The remaining 56 percent of the total cost per lunch was from children's payments, which averaged 32.2 cents and State and local contributions which averaged 20.9 cents.

Federal Cost

School Breakfast

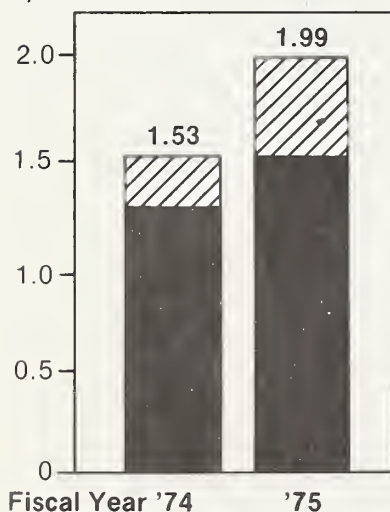

The School Breakfast Program was authorized on a limited basis by the Child Nutrition Act of 1966 and was made available to any school wanting it in 1973. The Federal Government provides cash reimbursement, donated foods, and technical guidance to States in establishing and operating school breakfast service.

In fiscal year 1975:

- The breakfast program reached a peak of nearly 2 million children in 14,277 participating schools, compared with 1.5 million children in 11,882 schools a year earlier. This represents 30 percent more children having breakfast in 20 percent more participating schools. On the average, breakfast participation was 1.83 million compared to 1.37 million the previous year.
- The program served 294.7 million breakfasts, an increase of 30 percent over the 226.7 million served in fiscal year 1974. The program continued primarily to benefit needy children, with 82 percent of the breakfasts served free or at reduced price.
- price. Eighty-three percent of the breakfasts served a year earlier were free or at reduced price.
- Federal contributions totaled \$94.9 million including \$86.1 million in cash reimbursement and \$8.8 million worth of donated foods. The total was 44 percent higher than the \$65.9 million Federal contribution in fiscal year 1974.
- The average Federal contribution amounted to 32.2 cents per breakfast, 11 percent higher than the previous year, due in part to adjustments in reimbursement rates reflecting the Consumer Price Index for food away from home. Additional funding was provided to pay up to 100 percent of the operating costs for free breakfasts, not to exceed 45 cents, for especially needy schools.

Special Food Service Program

The Special Food Service Program, started in 1968, provides assistance for meal service to nonresidential child care institutions in areas of low income and areas with a substantial percentage of working mothers. The program includes both year-round child care and Head Start centers, primarily for preschool children, and summer feeding programs for needy school-aged children in parks, playground, and recreation programs.

In fiscal year 1975:

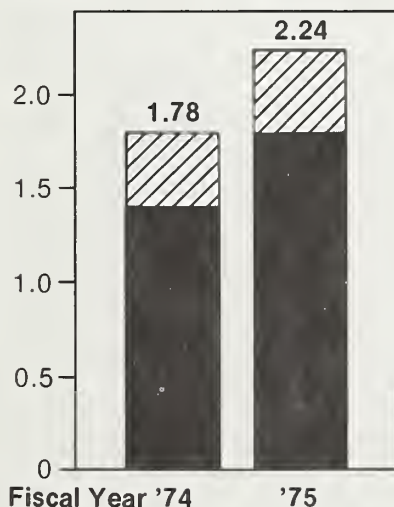

- The program was available through 23,699 centers, 24 percent more than last year's total of 19,041. This year's total includes 11,676 centers in the year-round phase and 12,023 in the summer phase.
- The program reached 2.2 million children, 462,000 more than a year ago. The year-round phase of the program reached 457,000 children, 21 percent more than last year while the summer phase reached 1.78 million, 27 percent more than the previous year. The summer phase of the program

accounted for 80 percent of the total participation this year. In fiscal year 1974, the summer phase accounted for 79 percent.

- A total of 308.5 million meals were served, 36 percent more than the previous year. Nearly 73 percent of the total was provided in the year-round program.
- Federal contributions increased 63 percent—from \$64.9 million in fiscal year 1974 to \$105.8 million this year. Some \$6.7 million represents the value of commodities distributed by USDA and \$99.1 million was cash reimbursement. The summer activities accounted for \$50.3 million or 51 percent of the Federal cash contribution.
- Federal contributions averaged 33.5 cents per meal, 5.3 cents higher than in fiscal year 1974. Federal contributions for the summer program averaged 60.3 cents per meal, 7.1 cents more than a year earlier. For the year-round activities, these contributions averaged 23.4 cents, 5 cents more than the previous year.

Special Milk Program

The Special Milk Program provides Federal reimbursements to eligible participating schools, child care centers, settlement houses, and summer camps for part of the cost of milk served. Milk is provided free to especially needy children.

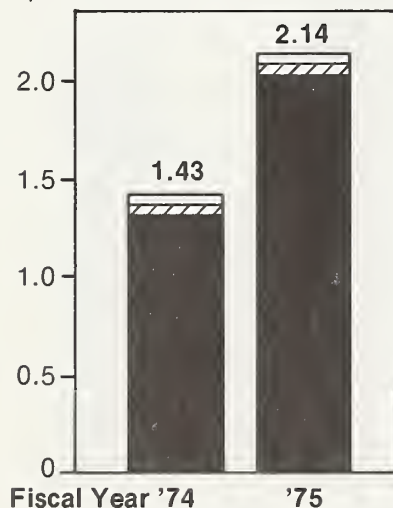

In fiscal year 1975:

- The program was available in 88,800 outlets—83,700 schools, 3,400 summer camps, and 1,600 institutions. This was 2 percent fewer than the 90,800 outlets reported the previous year.
- Over 2.1 billion half-pints of milk were served compared to 1.4 billion in fiscal year 1974. This total represents 2.04 billion to schools, 43 million to summer camps, and 58 million to institutions.

- Especially needy children benefitted from nearly 348 million free half-pints of milk—16 percent of total half-pints.
- Federal cash contributions totaled \$122.9 million—150 percent more than last year's total of \$49.2 million. The Federal contribution per half-pint of milk averaged 5.74 cents, up 67 percent from last year's 3.44 cents.

Nonfood Assistance Program

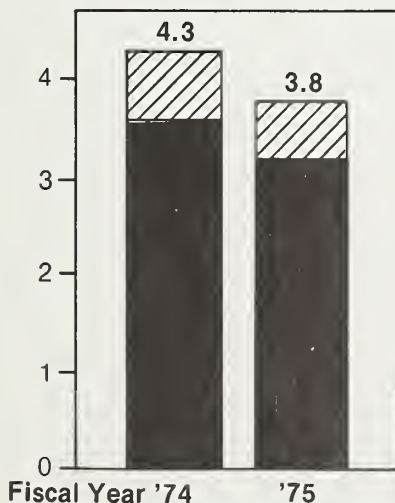

The Nonfood Assistance Program provides Federal cash and technical assistance to State educational agencies to help needy schools acquire food service equipment to establish, maintain, or expand food service programs. Schools receiving this aid must agree to participate in the National School Lunch or School Breakfast Program.

In fiscal year 1975:

- A total of 8,347 schools received equipment assistance of \$26.3 million. This compares to 8,489 schools receiving equipment assistance of \$27.2 million in fiscal year 1974—a decrease of 2 percent in the number of schools and 3 percent in Federal contributions. Of the total 8,347 schools assisted this year, 1,328—previously without food service—received 48 percent of the total Federal expenditures.
- Average daily attendance at schools receiving nonfood assistance was 3.8 million children, 11 percent below the previous year's total of 4.3 million. Of the total 3.8 million children, 3.2 million were attending schools with an existing food service, and the remaining 600,000 were attending schools that initiated a new program in fiscal year 1975.
- The average expenditure per school dropped 2 percent, from \$3,203 to \$3,149. The average was \$9,386 per school in starting new programs, and \$1,969 per school in those with existing programs. Average expenditure per child was \$6.88—up 9 percent over the \$6.33 the previous year.

Family Food Assistance Programs

FNS provides food or the means to buy food to low-income households through the Food Stamp, the Food Distribution, and special nutrition supplement programs. The total U.S. population—due to an August 1973 congressional mandate—now has access to the Food Stamp Program. (Only persons living on Indian reservations and those residing in the Trust Territories have been granted the option to continue in the Food Distribution Program). At year-end, over 96 percent of all persons receiving family food assistance were in the Food Stamp Program.

In fiscal year 1975:

- Over 19.9 million people benefitted from food assistance programs by the end of the fiscal year, 30 percent above year-end participation a year ago. A rising share—96.3 percent—of these participants were food stamp users, while the second most active program, the Special Supplemental Food Program for Women, Infants and Children (WIC) accounted for 2.5 percent of the participants. The Food

Distribution Program accounted for slightly more than 0.4 percent of total participation.

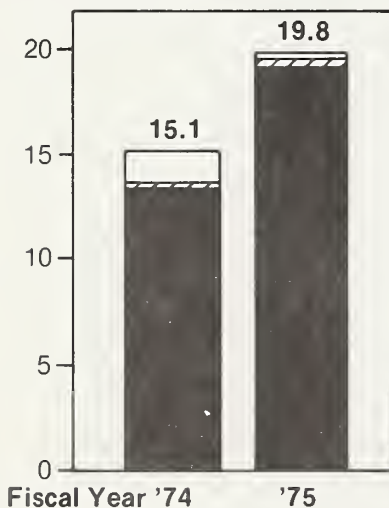

- Federal payments for family food assistance totaled slightly over \$4.5 billion, up 55 percent from the \$2.9 billion the previous year, reflecting increased food costs, the rise in unemployment, and the switch from food distribution to food stamps.
- The average Federal contribution per person per month increased 22 percent in the Food Stamp Program, from \$17.61 to \$21.41. In the Special Supplemental Food Program for Women, Infants and Children (WIC), the average monthly benefits per person increased 18 percent, from \$15.86 to \$18.58, while the Federal cost of the food “package” increased 16 percent in the Food Distribution Programs—from \$7.97 to \$9.25.

In addition to the three major programs, aid to needy persons was provided through:

■ Food Stamp Areas

▨ Non-Food Stamp Areas

The Food Stamp Program

The Food Stamp Program, administered in cooperation with the State welfare agencies, subsidizes low-income households to buy more food of a greater variety through retail stores. Participants pay a specific amount of money, based on household size and income, and receive an allotment of food stamps worth more. State agencies assume responsibility for certifying eligible households and issuing stamps.

In fiscal year 1975:

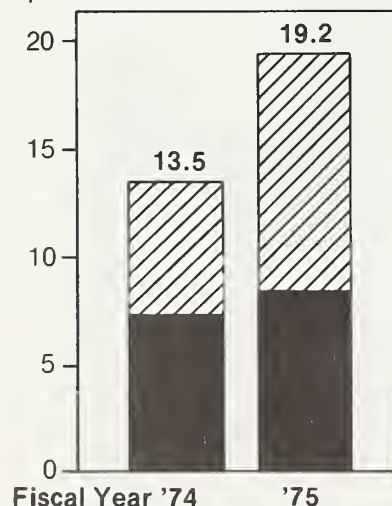

- The number of food stamp project areas increased 8 percent — from 2,818 to 3,035 — resulting from the completion of the 1973 mandatory nationwide switch from Food Distribution to the Food Stamp Program.
- Participation at the end of the fiscal year was 19.2 million, 42 percent higher than the 13.5 million the previous year. During the peak month of operation, participation reached 19.3 million, compared to 13.7 million the previous year. Participants of nonpublic assistance households constituted 56 percent of all food stamp users at

the end of this fiscal year, compared to 46 percent at the end of fiscal year 1974. This was the first time public assistance recipients have dropped below half of the total food stamp caseload.

- Recipients paid \$2.9 billion and received food stamps worth \$7.3 billion, giving them a food buying bonus of \$4.4 billion — up 63 percent from the previous year. Of total bonus dollars issued, slightly over \$1.26 million in free bonus food stamps were issued on an emergency basis to 32,600 victims of natural disasters at 22 projects in 6 states.
- Average monthly benefits per person increased 22 percent, from \$17.61 in fiscal year 1974 to \$21.41 this fiscal year. Food stamp allotments are adjusted semi-annually according to changes in food prices.
- The number of outlets authorized to accept food stamps increased by 42,000, from 201,000 last fiscal year to 279,000 in fiscal year 1975.

Food Distribution Program

Direct food distribution to needy families had virtually ended as a result of the 1970 Congressional mandate for a nationwide Food Stamp Program. However, Indian reservations were granted the option to continue food distribution until June 30, 1977.

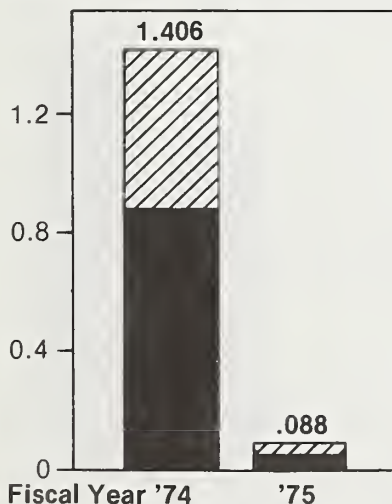

In fiscal year 1975:

- At year-end, direct food distribution remains with 39 projects in 10 States (including the Pacific Trust Territory) serving 88,000 needy people—a decrease of 349 projects.
- Participation at year-end totaled 88,000, some 94 percent below the 1.4 million recorded during the same period a year early.
- The average monthly participation in the Food Distribution Program fell to 330,000 from 1.98 million a year ago.

- The needy family program distributed 103.3 million pounds of donated foods, 81 percent less than the 549.5 million pounds distributed last year.
- Recipients received a monthly average of 26.7 pounds of food per person at a Federal cost of \$9.25. This compared to 23.1 pounds of food costing \$7.97 in fiscal year 1974.
- The total Federal cost of the food for needy families came to \$36.6 million, down 81 percent from fiscal year 1974 as programs continued to switch over to food stamps.

Special Supplemental Food Program for Women, Infants and Children (WIC)

The Special Supplemental Food Program for Women, Infants, and Children (WIC), begun in January 1974, provides cash grants to State health departments or comparable agencies and to recognized Indian tribes, bands, or groups. The recipients of these cash grants make supplemental foods available to pregnant and nursing women, infants and children up to their fifth birthday through participating health clinics.

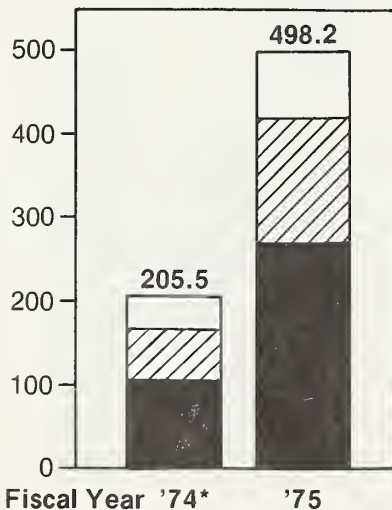

In fiscal year 1975:

- At year end, monthly participation reached 498,000, a 142 percent rise in participation from June 1974. Average monthly participation was 344,000, compared to last year's average of 88,000. WIC projects operated in 48 States, Puerto Rico, Virgin Islands, and Indian reservations.
- Federal expenditures totaled \$89.3 million, compared to \$10.4 million the previous year. Food costs in fiscal year 1975 accounted for 86 percent of the total, administrative costs for 8 percent, and clinic costs for 6 percent.

- The cost of food per person averaged \$18.58 in June 1975, an 18.5 percent increase above last year.
- Specified amounts of certain foods—such as iron-fortified infant formula and cereal, fruit or vegetable juices high in vitamin C, and milk and eggs—were provided through State-run delivery systems. Most recipients received vouchers, redeemable at retail stores, although some areas distributed food directly to people taking part in the program.

Explanation of Tables

Total Contributions to Food Assistance Programs

Total cash and Federal donated commodities used in each of the 11 Food and Nutrition Service programs do not include administrative or operating costs associated with the Food Stamp Program.

Availability of Child Nutrition Programs in Schools

Total Public and Private Schools: All public and nonprofit private elementary and secondary schools in the 50 States, District of Columbia, and Territories (American Samoa, Guam, Puerto Rico, Virgin Islands, Trust Territories, and overseas dependents schools).

National School Lunch Program (NSLP): Public and nonprivate schools that entered into an agreement with the U.S. Department of Agriculture to:

- Serve Type A meals (prescribed food components meeting approximately one-third of the daily nutritional requirements), and

- Have an acceptable policy that will provide needy children with free or reduced price meals.

Breakfast Program: Those schools serving breakfasts that receive funds under the Child Nutrition Act.

Nonfood Assistance Program: Represents the total number of schools that used one of the following sources of aid for the purchase of food service equipment:

- Child Nutrition Act Funds

- Supplemental Section 32 Funds

Child Nutrition Programs in Schools:

Those schools operating under the National School Lunch Act of 1946, as amended, and/or the Child Nutrition Act of 1966, as amended.

Participants: This term is synonymous with children reached and is based on adjusting the number of meals served daily by States to account for absenteeism. The national absentee rate was 8 percent during fiscal year 1975. The resulting participation is an

average number for a peak month, nationally. Participation would be higher if each State's individual peak were considered, or if reports were based on the largest number of meals served on a single day. Participation also assumes that the same child eats every day when in school.

Peak Reached: The average number of meals served daily or the number of participants served during the peak month, nationally. Individual States could have a different peak month, thus, the numbers shown tend to understate the children reached.

State Administrative Expenses (SAE): Covers funds apportioned to States (\$6.7 million in fiscal year 1975) to provide financial assistance for administering USDA child feeding programs.

Federal Cost of Commodities: The cost of all donated commodities that are provided by USDA.

USDA sources:

- Section 6: Special funds authorized under the National School Lunch Act, for NSLP schools;

- Section 32: Commodities purchased with surplus-removal funds authorized under the Agricultural Adjustment Act of 1935 (Public Law 320), as amended;

- Section 416: Commodity Credit Corporation price support commodities authorized under the Agricultural Act of 1949, as amended, and

- Section 709: Commodity Credit Corporation dairy price support commodities (other than fluid milk in the case of schools) authorized under the Agricultural Act of 1965, as amended.

Types of schools provided donated foods:

- National School Lunch Program schools.

- Breakfast Program schools.

- "Commodity-Only" schools: Those schools receiving only Section 32 and 416 commodities. These are public and nonprofit private schools that have a food service program and receive USDA-donated commodities, but do not participate in the National School Lunch

Program. They are not eligible to receive cash reimbursements or Section 6 commodities.

Note: Commodity costs for the breakfast program were estimated by the Child Nutrition Division to be about 3 cents per breakfast in fiscal year 1975. This cost has been deducted from the total cost of food distributed leaving the remainder to represent the cost of NSLP schools and "Commodity-Only" schools.

Federal Program Outlay: *The same as All Federal Outlays except that it excludes State Administrative Expenses (SAE):*

The Federal Program Outlay per child is based on dividing the total Federal Outlays, excluding SAE, by the number of participants reached during the peak month (see definition of *Participants* on preceding page).

The Federal Program Outlay per meal is based on dividing the Federal Outlay, excluding SAE, by the total number of meals served.

Special Milk Program:

Number of outlets refers to the peak number of schools, child-care institutions and summer camps for which claims have been approved during a single month for each type of outlet, nationally.

Special Food Service Program:

The Special Food Service Program serves children of school age or under, in nonresidential, nonschool institutions such as child-care centers, settlement houses, and recreation centers.

Summer Only: Programs operating about 50 days during the summer, usually in July and August. The summer-only programs primarily serve school-age children.

Year-Round: Establishments operating a program all through the year, generally serving preschool children.

Number of Outlets: The peak number of institutional outlets for which claims have been approved for a single month, nationally.

Average Daily Attendance: The number of children actually attending daily, as opposed to enrollment.

Total Meals Served: Includes the total number of meals served in year-round and summer only outlets and includes the total for the following types of meals:

Breakfasts

Lunches

Supplemental Meals (snacks)

Suppers

Federal Contributions:

Cash: Includes Section 13 (National School Lunch Act) funds and Section 32 funds used for equipment in fiscal year 1975.

Commodities: Includes the Federal cost of all federally donated commodities. (See Special Food Service outlets described under Food Distribution Program, below.)

Special Supplemental Food Program (WIC)

Year-End Participation: The total number of recipients to whom supplemental foods or vouchers have been issued.

Value of Benefits: The Federal cost of providing special supplemental foods to recipients participating in the food aspect of the WIC Program.

Administrative Funds: Those direct and indirect costs, exclusive of food costs which State and local agencies determine to be necessary to support program operations. Such costs may include, but are not necessarily limited to, cost of general State and local agency program administration, monitoring, auditing, nutrition education, startup, and nutritional assessment.

Benefits per Person: The value of benefits divided by cumulative participation.

Food Distribution Program:

Outlets. Refers to the number and kinds of outlets reported by the States as receiving federally donated foods. Types of outlets include the following:

Schools: Those operating a lunch or breakfast program under the National School Lunch Act, as well as nonprofit schools not participating in the National School Lunch Program but providing elementary and secondary children with food service on a nonprofit basis. Subclasses of schools

based on types of commodities utilized include:

Section 32, 416, and 709 Outlets: All schools—Lunch, Breakfast, and “Commodity Only.”

Section 6 Outlets: Only National School Lunch Program schools.

Special Food Service Outlets: Child feeding outlets (institutions, not schools) obtaining only Section 32, 416, and 709 foods. For the purpose of this table and the allocation of donated foods, Special Food Service outlets are grouped under schools.

Institutions: All nonprofit outlets, other than Special Food Service outlets, receiving Section 32, 416, and 709 foods only. Institutions are divided into the following two categories:

Year-round: Outlets operating on a year-round basis, such as nonprofit orphanages, old-age homes, hospitals, etc.

Summer Camps: Nonprofit summer camps operating between June and September.

Needy Persons: Individual participants as a class of outlets receiving Section 32, 416, and 709 commodities directly. Recipients in this category include the following:

Needy Families: The number of persons participating in the Needy Family Food Program at the end of the fiscal year, i.e., June 1975.

Supplemental Food: The number of eligible mothers, pregnant women, and children up to their fifth birthday, provided with a specially designed package of donated foods to meet their nutritional needs. The participation data are based on year-end participants.

Nutrition Program for Elderly: Consists of commodity support from Section 32 and 416 for meals served under the Older Americans Act of 1965, as amended.

Persons Participating: Persons receiving the benefits of federally donated goods in each of the outlets described above during peak month, nationally. (See definition of *Outlets*, above.)

Pounds: Includes those pounds of all commodities reported by the States as distributed to program recipients during fiscal year 1975.

Federal Cost for Commodities: The actual acquisition cost, plus those transportation and storage costs incurred by USDA.

Cash Assistance to States for Needy Family Program: Cash funds allocated directly to the State agencies for the purpose of providing financial assistance to the States for distributing USDA commodities.

Food Stamp Program:

Projects: Operating units that generally coincide with counties, but also include welfare districts, independent cities, Indian reservations, and partial counties. A project may also include more than one county.

Persons Participating: The number of participants reached at the end of the fiscal year, i.e., June 1975.

Coupons Issued: Food stamp coupons actually issued to food stamp recipients during the fiscal year.

Total Coupons: The total value of coupons issued equals the cash amount paid by the recipients, plus bonus coupons.

Bonus Coupons: The value of food stamp coupons that are provided free by USDA.
